

Retraction: In vitro Antioxidant Potentials of *Cyperus rotundus* L. rhizome Extracts and their Phytochemical Analysis

The original article titled “In vitro antioxidant potentials of *Cyperus rotundus* L. rhizome extracts and their phytochemical analysis” published in Pharmacognosy Magazine, on pages 261-267, Volume 14, Issue 54, 2018,^[1] is being retracted because of having number of sections of content as well as figure, with high rate of verbatim similarity from another unpublished article. The content has also been published without the acknowledgement and permission from the original author. It was brought to the attention of the journal’s Editor-in-Chief by the original author of the article. Upon contacting, the author replied with a request to withdraw/retract the published article. Thus, the journal’s editorial office decided to retract the article. Plagiarism, fabrication, duplication, unethical or redundant publication violates the editorial policy of Pharmacognosy Magazine, which follows best practice guidelines given by the International Committee of Medical Journal Editors (ICMJE) and Committee on Publication Ethics (COPE) mentioned on the Information for Authors and as codified in the signed statements made by the authors regarding the copyright of their work. This article has been retracted on request of the Author, Editor-in-Chief and Editorial board of the journal.
