## Pharmacognosy Magazine's new and improved Impact Factor – 1.525

### Nandan S.

Assoc-Editor, Pharmacogn. Mag., Splendid Plaza, No. 26, Wheeler Road, Cox Town, Bangalore 560 005, India

Submitted: 28-08-2013 Published: 07-09-2013

Thank you for your continuous support for the *Pharmacognosy Magazine*. As a valued reader, we would like to share important news with you. The 2012 Journal Citation Reports<sup>®</sup> from Thomson Reuters is now released and we are delighted to announce that the *Pharmacognosy Magazine* has its new Impact Factor.

We are pleased to announce that our Impact Factor has increased to **1.525**, retaining our position as one of the top pharmaceutical journals in India (2012 Journal Citation Reports<sup>®</sup>, ©Thomson Reuters, 2013).<sup>[1]</sup>

### Few of the achievements this year

- Subject-based ranking (Medicinal Chemistry) based on Impact Factor – 44.
- Immediacy Index 0.135.
- Impact Factor increased from 1.159<sup>[2]</sup> (2011 Journal Citation Reports<sup>®</sup>, ©Thomson Reuters, 2012) to 1.525 (2012 Journal Citation Reports<sup>®</sup>, ©Thomson Reuters, 2013).

### Some of the top cited articles in past 2 years

- Total phenolic distribution of juice, peel, and seed extracts of four pomegranate cultivars. [3]
- Total polyphenolic (flavonoids) content and antioxidant capacity of different Ziziphora clinopodioides Lam. Extracts.<sup>[4]</sup>

- Studies on the active components and antioxidant activities of the extracts of Mimosa pudica Linn. from southern China.<sup>[5]</sup>
- Title: Chemical composition and antimicrobial activities of the essential oils from three ecotypes of Zataria multiflora.<sup>[6]</sup>
- Effects of *Hypericum perforatum* extract on rat irritable bowel syndrome.<sup>[7]</sup>
- Isolation and identification of phenolic compounds from *Gynura divaricata* leaves. [8]
- A HPLC-DAD method for the simultaneous determination of five marker components in the traditional herbal medicine Bangpungtongsung-san.
- Phytochemical constituents and antioxidant activities of the whole leaf extract of Aloe ferox Mill.<sup>[10]</sup>
- Screening and analysis of the multiple absorbed bioactive components and metabolites of Baihe Zhimu Tang by the metabolic fingerprinting technique and liquid chromatography/diode array detectionelectrospray ionization-mass spectrometry.<sup>[11]</sup>
- Determination of some phenolic compounds in Crocus sativus L. corms and its antioxidant activities study.<sup>[12]</sup>

We are extremely thankful to the authors, reviewers, readers, and Publisher (Medknow – Wolters Kluwer) for their support.
